

DELIVERY DEADLINES

- HW #1: 14th May - 23:59 (ENDED! Max 50%)
- HW #2: 21st May - 23:59 (ENDED! Max 50%)
- Assignment #1: 21st May 23:59 (ENDED! Max 50%)
- **HW #3: 4th June - 23:59 (TODAY!!!)**
- HW #4: 11th June - 23:59 (NEXT WEEK)
- Assignment #2: 11th June - 23:59 (NEXT WEEK)

FINAL PROJECT INTRODUCTION

- We won't be doing project presentations, but you are expected to deliver:

Deliverable-1: Git Repository Link of the project

Deliverable-2: Project Content Folder (Separately if total size is larger 500 MBs, will be uploaded to SharePoint)

Deliverable-3: 2-5 mins gameplay video of your game (Will be uploaded to SharePoint).

- Full gameplay (mainmenu + in-game + end screen)
- No "In-Editor window". Do a packaged game and fullscreen recording.
- No sub-titles or music (unless it is the game's sfx and music)

FINAL PROJECT STEPS

DELIVERABLE-4:

Simple GDD of your game, mentioning these sections:

- Actors
- Space/Story
- Goals
- Mechanics
- Rules

FINAL PROJECT RULES

- Solo or 2 person teams are allowed.
- 2+ person teams are subject to discussion with the instructor.
- C++/Blueprint inter-work is allowed.
- Implementing basic functionality (such as movement, character stats, ray-tracing, object-picking, stamina systems...etc) in Blueprints are not allowed!
- Using animations, visual assets, sounds from Market content is allowed.
- The assets provided through-out the class can be used.
- The assets used in other classes can also be also used.
- No external code/plugin/module can be added. Whole c++/blueprint code must be produced by the team members.
- Every team member will implement blueprints or c++ classes! Artist-only roles are not accepted!
